# 1 Introduction

## 1.1 Easy to use Information Products

### General

The Robot User Documentation is aimed at all robot users, providing easy to use information and guidelines as well as in-depth descriptions and detailed reference literature.

There is a robot user document for each stage of use, from installation and commissioning, through programming, operation and maintenance to troubleshooting and decommissioning of your robot system.

ABB's group of skilled editors provide professional user documentation, ensuring efficient communication of robot expertise, from our engineers to your personnel.

### Key benefits

- Easy-to-use user documentation
- In-depth reference information
- Detailed product information
- Maintenance and service procedures

## 1.2 Ordering User documentation

### CD-ROM

All robot user documentation can be ordered on a CD-ROM. The documentation browser appears automatically on your PC screen at startup of the CD. The CD format provides advantages, such as easy search, copy and paste, printing pages, etc. There is one CD per robot family in all languages, as specified on page 11 to page 63. Updates of the CD are released at every major product change (Robot, Controller and RobotWare).

Figure 1 CD-ROM interface.

### Paper format

User documentation can be delivered in traditional paper format as specified on the robot specification form. User documentation for programmers is delivered in bound

format and user documentation for operators/service engineers is delivered as the more robust wire binding.

---

## ABB Library

Updated versions of all user documentation can be found in English pdf format at [Inside.ABB.com/library](http://Inside.ABB.com/library). ABB Library is a fast and easy way to find updated robot information and can be accessed by all ABB employees.

---

## Languages

Robot documentation is translated into 14 languages, including a number of Asian languages, according to the EU machine directive.

Documents which are not translated will be delivered in English, when ordered, see the specification tables.

---

## Ordering User Documentation

User documentation is ordered using the standard Robot Specification form. A single tick on the specification form will provide you with the basic robot package of documentation. Product manuals are delivered with the robots and controllers, respectively. Application manuals are included, when buying RobotWare options.

For more detailed information, please refer to the specification tables.

---

## Basic robot documentation package

Art. no	Basic robot package of documentation
3HAC18236-1	Operator's manual - IRC5 RobotStudio Online
3HAC021564-001	Operator's manual - IRC5 Getting started
3HAC16590-1	Operator's manual - IRC5 with FlexPendant
3HAC020738-001	Trouble shooting manual - IRC5
3HAC16580-1	TRM - RAPID Overview
3HAC 16581-1	RAPID reference Part 1 and Part 2
3HAC 17076-1	Sys Para Manual
See page 13 for article number.	Product manual manipulator: IRB 140, 1400, 1600, 2400, 4400, 66X0 (Type A and Type B - Proc/Ref.inf), 6650S, 7600, 340, 940, IRC5

## 1.3 Robotics manuals

---

**CD documentation**

There is one documentation CD per robot family. Every CD includes all robot user documentation in all languages, as specified on page 11 to page 63. A document browser makes it easy to find the document of your choice.

---

**Operating manuals**

These manuals are directed to persons with first hand contact with the robot system, i.e. production operators, programmers and service personnel.

---

**Technical reference manuals**

The Technical Reference Manual includes reference information on RobotWare, the controller software. The manuals include syntax and detailed information on all instructions, functions, datatypes in the RAPID language and system parameters.

For reference information on mechanics and electronics, please refer to the Product Manual, part: Reference Information.

---

**Application manuals**

The Application Manual describes RobotWare options, directed to specific applications, such as RobotWare-Arc, -Spot, -Dispense.

The content includes:

- Purpose of the option: For what is the option intended?
- What is included in the option, e.g. RAPID instructions, system parameters
- Which hardware is required, e.g. cables and I/O boards
- Setup, programming and configuration examples

---

**Product manuals**

There is a Product Manual for each robot and controller. The Product Manual is divided in two parts, as described below:

Product Manual, Procedures:

- Safety information
- Installation and commissioning
- Maintenance (Service schedules and preventive maintenance routines)
- Repair (Lists of spare parts and repair procedures)
- Calibration procedures
- Decommissioning procedures

Product Manual, Reference Information:

- Reference Information
- Part list
- Foldouts or exploded views
- Circuit diagrams

## 1.4 IRC5 versus S4Cplus

---

<b>General</b>	This section describes the major improvements in the IRC5 documentation structure, as compared to the S4Cplus documentation.
<b>User's Guide</b>	The S4Cplus User's Guide has been split into three manuals, depending on their target profession group: <ul style="list-style-type: none"><li>• Operating Manuals: Information for operators</li><li>• System Parameters: Information for programmers</li><li>• Trouble Shooting Manual: Event Messages for IRC5 are included in the new manual, Troubleshooting. This information is directed to service personnel.</li></ul>
<b>Product Manual</b>	The Product Manual has been split in separate manuals for robot and controller. This information is mainly intended for service personnel.
<b>RobotWare options</b>	Manuals for RobotWare options have been compiled into groups, in accordance with the IRC5 RobotWare option structure.
<b>Getting Started</b>	This is a new manual, with basic information on how to configure and start up a robot system. The manual is delivered with every controller.
<b>Trouble Shooting Manual</b>	Includes information on how to detect faults in the IRC5 controller. Describes all event messages from the resident diagnostic system.
<b>RobotStudio Online</b>	A new operating manual for the IRC5 startup and configuration product: RobotStudio Online.
<b>SW format</b>	The format for all software manuals has been reduced to a standard software format.
<b>New document structures</b>	More structured information, including professional tables, icons and description structures.

---

1.From 14 July 2005

### Operating manuals

Art. no.	Manual	Option no.
3HAC18236-3	Operator's manual - IRC5 RobotStudioOnline (German)	165-1 <sup>1</sup>
3HAC021564-003	Operator's manual - IRC5 Getting started (German)	165-1
3HAC16590-3	Operator's manual - IRC5 with FlexPendant (German)	165-1
3HAC020738-003	Trouble shooting manual - IRC5 (German)	165-1

1.Only available on the CD for documentation (3HAC021747-0xx).

### Technical reference manuals

Art.no.	Manual	Option no.
3HAC16585-1	TRM - RAPID kernel (English)	165-1 and 626-1
3HAC16580-3	TRM - RAPID overview (German)	165-2
3HAC16581-3	TRM - RAPID reference manual (German)	165-1
3HAC17076-3	TRM - System parameters manual (German)	165-1

### Application manuals

Art.no.	Manual	Option no.
3HAC021395-001	Application manual - Additional axes (English)	165-1 and (766-1 or 753-1 or 753-2 or 753-3 or 754-1 or 754-2 or 754-3 or 755-1 or 755-2 or 755-3 or 770-1 or 770-2 or 770-3 or 770-4 or 771-1 or 771-2 or 771-3 or 771-4) <sup>1</sup>
3HAC020676-001	Application manual - DeviceNet (English)	165-1 and (709-1 or 709-2)
3HAC023008-001	Application manual - ProfiBus (English)	165-1 and 711-1
3HAC023009-001	Application manual - InterBus (English)	165-1 and (712-1 or 712-2)
3HAC18152-1	Application manual - Motion functions and events (English)	165-1 and (608-1 or 609-1 or 610-1 or 611-1 or 612-1)
3HAC18153-1	Application manual - Motion performance (English)	165-1 and (602-1 or 603-1)
3HAC18154-1	Application manual - Motion coordination and supervision (English)	165-1 and (607-1 or 613-1)
3HAC16587-1	Application manual - Conveyor tracking (English)	165-1 and 606-1
3HAC020436-001	Application manual - Servo motor control (English)	165-1 and (629-1 or 630-1 or 631-1)
3HAC020435-001	Application manual - Robot communication and I/O control (English)	165-1 and (614-1 or 615-1 or 616-1 or 618-1 or 620-1 or 621-1 or 622-1)
3HAC020434-001	Application manual - Engineering tools (English)	165-1 and (15-1 or 623-1 or 627-1 or 628-1)
3HAC021272-003	Application manual - Multi-Move (German)	165-1 and (604-1 or 604-2)
3HAC16591-1	Application manual - RobotWare-Arc and Arc Sensor (English)	165-1 and (633-1 or 633-2)
3HAC16593-1	Application manual - RobotWare-Dispense (English)	165-1 and 641-1
3HAC16582-1	Application manual - RobotWare-Spot (English)	165-1 and 635-1
3HAC16583-1	Application manual - RobotWare-Spot Servo (English)	165-1 and 635-3
3HAC16584-1	Application manual - Continuous application platform (English)	165-1 and 624-1
3HAC16586-1	Application manual - Discrete application platform (English)	165-1 and 625-1
3HAC16090-1	Absolute Accuracy CalibWare 2.0 (English)	

1. Only available on the CD for documentation (3HAC 021747-0xx).

3HAC16590-14	Operator's manual - IRC5 with FlexPendant (Czech)	669-1
3HAC020738-001	Trouble shooting manual - IRC5 (English)	669-1

1.Only available on the CD for documentation (3HAC021747-0xx).

### Technical reference manuals

Art.no.	Manual	Option no.
3HAC16585-1	TRM - RAPID kernel (English)	669-1 and 626-1
3HAC16580-1	TRM - RAPID overview (English)	669-1
3HAC16581-1	TRM - RAPID reference manual (English)	669-1
3HAC17076-1	TRM - System parameters manual (English)	669-1

## Application manuals

Art.no.	Manual	Option no.
3HAC021395-001	Application manual - Additional axes (English)	669-1 and (766-1 or 753-1 or 753-2 or 753-3 or 754-1 or 754-2 or 754-3 or 755-1 or 755-2 or 755-3 or 770-1 or 770-2 or 770-3 or 770-4 or 771-1 or 771-2 or 771-3 or 771-4) <sup>1</sup>
3HAC020676-001	Application manual - DeviceNet (English)	669-1 and (709-1 or 709-2)
3HAC023008-001	Application manual - ProfiBus (English)	669-1 and 711-1
3HAC023009-001	Application manual - InterBus (English)	669-1 and (712-1 or 712-2)
3HAC18152-1	Application manual - Motion functions and events (English)	669-1 and (608-1 or 609-1 or 610-1 or 611-1 or 612-1)
3HAC18153-1	Application manual - Motion performance (English)	669-1 and (602-1 or 603-1)
3HAC18154-1	Application manual - Motion coordination and supervision (English)	669-1 and (607-1 or 613-1)
3HAC16587-1	Application manual - Conveyor tracking (English)	669-1 and 606-1
3HAC020436-001	Application manual - Servo motor control (English)	669-1 and (629-1 or 630-1 or 631-1)
3HAC020435-001	Application manual - Robot communication and I/O control (English)	669-1 and (614-1 or 615-1 or 616-1 or 618-1 or 620-1 or 621-1 or 622-1)
3HAC020434-001	Application manual - Engineering tools (English)	669-1 and (15-1 or 623-1 or 627-1 or 628-1)
3HAC021272-001	Application manual - Multi-Move (English)	669-1 and (604-1 or 604-2)
3HAC16591-1	Application manual - RobotWare-Arc and Arc Sensor (English)	669-1 and (633-1 or 633-2)
3HAC16593-1	Application manual - RobotWare-Dispense (English)	669-1 and 641-1
3HAC16582-1	Application manual - RobotWare-Spot (English)	669-1 and 635-1
3HAC16583-1	Application manual - RobotWare-Spot Servo (English)	669-1 and 635-3
3HAC16584-1	Application manual - Continuous application platform (English)	669-1 and 624-1
3HAC16586-1	Application manual - Discrete application platform (English)	669-1 and 625-1
3HAC16090-1	Absolute Accuracy CalibWare 2.0 (English)	

1. Only available on the CD for documentation (3HAC 021747-0xx).
